Alcohol removes inhibitions - like that scared little mouse who got drunk, shook his whiskers, and shouted: "Now bring on that damn cat!"

About Alcoholic Beverages

Drinking is a time-honored method of raising people's spirits.

Every age and every nation, every individual has some characteristic and favored drinks. Over the years, three broad categories have emerged: Beers, wines and spirits. Beers may be Lager, pilsner, bitter or stout. Wines are innumerable: champagne, Sherry, port, burgundy or hock- to name only few. Within the category of spirits, five major liquors, each distinct in identity viz. Whiskey, Gin, Rum, Vodka and Brandy. To these may also be added liqueurs and cordials. Poets and writers down the ages have showered praise on them and tried to describe them. It is almost impossible to verbalise the smooth strength of their taste and the subtle appeal of their aroma. However, we shall try to capture the highlights of their lineage and the outlines of their character.
